Product Description

Firman Gas Inverter Portable Generator 3650W Recoil Start - W03381

The FIRMAN W03381 inverter is a quiet and compact portable generator that provides clean, renewable power for electronics and sensitive equipment.

A simple traditional pull-start mechanism starts the W03381 inverter generator. With a full tank, the W03381 can operate for up to 10 hours, thanks to its fuel capacity of 1.8 gallons.

Due to its quiet and compact design, the Firman W03381 is perfect for the home, camping, tailgating, and other recreational uses and events.

The W03381 produces a clean sine wave, with a <3% Total Harmonic Disruption (THD), that allows sensitive equipment to be plugged safely into the AC outlets.

The W03381 comes with an engine oil bottle, oil funnel, spark plug wrench, screwdriver, 12V battery cable, and quick oil drain.
